Anatomy in Clay Workshop

Monday, August 3, 2009 8:30 am – 4:00 pm

Tuesday, August 4, 2009 8:30 am – 4:00 pm

Kalahari Resort, 1305 Kalahari Drive, Wisconsin Dells, WI 53965

Cost is \$50 per participant which includes breakfast, lunch, and break both days. The actual training is **FREE** and brought to you by Health Sciences state level project.

- The workshop will use a combination of the Zahourek system of three-dimensional Anatomy in Clay and active learning to explore the various systems of the body. For the beginner as well as the pro, this is a fun, effective and accurate way to learn anatomy from the inside out. Participants will experience building the systems in clay on their own model using the human skeleton and will leave with materials and learning strategies that are ready to use in the classroom. Those who attended last year's session will learn additional applications this year.
- Monday's session will include embryonic and early childhood brain development, spinal cord, and nervous system as participants build body systems with clay. Tuesday's session will feature continued building of muscular, circulatory, and other systems of the body. WFCE members who choose to attend Tuesday morning's conference opening and keynote speaker may return to Anatomy in Clay as their afternoon breakout choice.

The workshop will connect Career Clusters and Pathways in the following courses and content area:

- Introduction and Advanced Health Science Occupations Courses
- Medical Terminology
- Physiology and Anatomy
- Shaken Baby Syndrome Prevention
- Assistant Child Care Teacher Course and Infant Toddler Certification
- Parents and Children Course and Human Growth and Development Units

About the Presenter: Starla A. Ewan, M.S., is in her 26th year of teaching and brings a rich background of experience, ranging from coaching, athletic training, all levels of biology, college instruction of anatomy, and years of on-site medical observation. She has been presenting successful teaching methods during conferences and staff development workshops for over 11 years. She currently teaches in Lubbock, Texas in their Medical Professions Program. Starla's teaching strategies and increased student understanding of difficult material through the use of hands-on activities and teaching tricks has led her to share with teachers, massage therapists, and medical personnel nationwide. The workshop gives fun and successful lessons to take back to the classroom. It is designed for the experienced or first-year teacher.

Accommodations

Please find the lodging information on the Wisconsin Family and Consumer Educators (WFCE) website at: www.wfce.org/summer_conference.html. Pre-session and conference lodging must be booked through WFCE. Please do not contact the Kalahari directly. **The conference room block expires on July 3, 2009.** Those not attending the WFCE Conference may choose to stay elsewhere.

✓ **Yes, register me for the Anatomy in Clay two-day workshop held August 3-4, 2009.**
